ABOUT BISNISIN TEKNOLOGI ASIA

Our story begins in October 2020 when our Founder was getting an exclusive contract with Lulu International Exchange as an Independent Professional Consultant (Solutions Architect) and was invited to their office in Dubai, UAE. Our Founder realized that the work he was doing was about creating a solution that could be applied to a variety of industries, so in the midst of this transformative project, the seed for our company was planted. Our Founder’s vision was clear: to provide businesses with tools and expertise they need to thrive in an ever-changing world.

Bisnisin Teknologi Asia

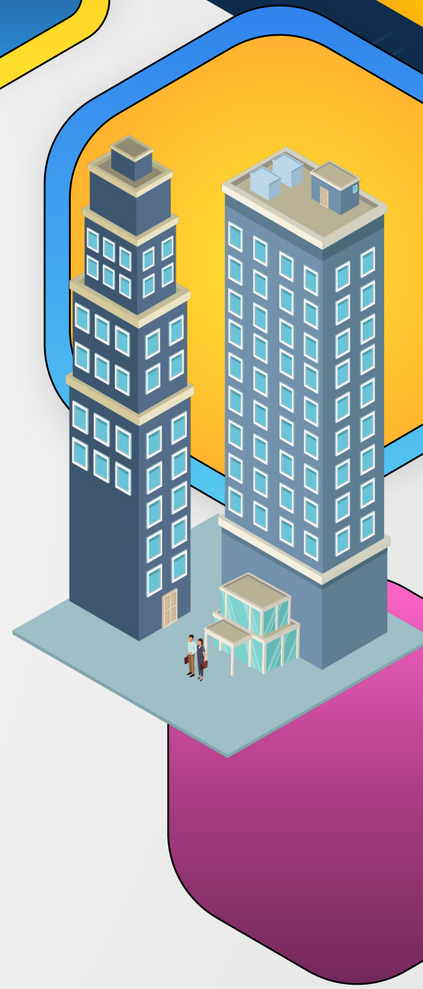
Company History



Our story begins in October 2020 when the Founder (Yauri) was getting an exclusive contract with Lulu International Exchange as an Independent Professional Consultant (Solutions Architect) and was invited to their office in Dubai, UAE.

Yauri realized that the work he was doing was about creating a solution that could be applied to a variety of industries, a solution that could make businesses more efficient, more adaptable, and more resilient. And so in the midst of this transformative project, the seed for our company was planted. Yauri's vision was clear: to provide businesses with tools and expertise they need to thrive in an ever-changing world.

Later on, Yauri met the Retali's business owner (Fahrizal Azwar). They decided to work together on designing and building a business digital transformation solutions namely "ZamZam" for RETALI.

Upon the completion of these two projects, Yauri decided to officially took the leap and established the company that he named as Bisnisin.asia.

Later on Bisnisin.asia has quickly established itself as a trusted partner for any businesses seeking reliable and innovative IT solutions.

Behind the Company

FAHRIZAL AZWAR

Board of Commissioners

Co-Founder

Linked-In Profile

Fahrizal started his computer telephony business in 1993, with the flag of Tel-Access he managed to build and deliver a voice mail system for BUKOPIN, RATELINDO (later on known as ESIA) and PT. Telkom Regional division 6.

Another product that he successfully launched was Calling Card System used by the PT. Telkom Regional division 1 and 6, PT. Komselindo and other calling card providers that thrive in the era of 1990s. His company was also the pioneer in Indonesia that develop SS7 based applications and successfully demonstrated Voice over IP (VoIP) system at the Telecommunication Exhibition in Jakarta Kemayoran around 1996-1997.

After left the Tel-Access in 2001, he built another company namely Global Intellix Crossing where he managed to got some prestigious client like PT. Telkom 147 Call Center for West and East Java, GE Money Collection Call Center, Voice Logger Telkomsel for all area before he left the company and built Razaki Technology in 2007.

Currently, he's the Commissioner and Director for Razaki Group Technology while also running other businesses.
